

Are you thinking about...

Studying Out-of-State or Internationally?

- Students have access to a wide variety of **high demand majors** and **specialized programs**
- Many **California universities** are becoming **more difficult** to get into due to lack of space or impacted programs
- In many cases, **tuition costs** are lower and in some cases, MUCH lower!
- Going away for college increases your **independence, life experience** and **cultural I.Q.**
- Both public and private institutions attend college fairs because they are actively **looking for students like you!**

What is WUE? (Western Undergraduate Exchange)

- Save money on tuition by studying in one of *these Western states
- Greater opportunity to graduate in four years
- More Flexible Entrance Requirements
- Less impacted programs

*Alaska, Arizona, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming.

If you are a resident of a WUE state, you are eligible to request a reduced WUE tuition rate of **150% or less of the resident rate** at one of the 170+ participating schools in the West. You will save thousands of dollars on out-of-state tuition. Some institutions limit the number of new WUE awards and majors each academic year, so research and apply early! Visit www.wiche.edu/wue for details.

Advantages of Studying in Canada

- One of the best educational systems in the world
- Degrees are globally recognized
